

WINK'S POKER BOWLING™ FORMAT

- 1) We bowl (3) games. Each game is for a separate Grand Prize.
- 2) We all start each game at the SAME TIME. If your group finishes their game earlier than others, PLEASE WAIT until all groups have finished theirs. We need to tally the Poker Hands and determine a winner for that game before beginning another. We then have to re-shuffle the cards and get the score sheets (see #4 below) set up for the next game. We'll tell everybody when we're ready to start the next game.
- 3) Getting Cards: Every time you knock down a **TOTAL of 8 PINS** or more in a frame, you get to pick a card from the Dealer's Shoe. (that's what the card dispenser is called. Not our ACTUAL shoes, please. LoL.) Come up to the Card Table and pick your card. Bring YOUR score card with you so you can write down what you drew. This way you will always know how your hand is looking.
- 4) Give us your player number, name & the card you've drawn. We'll enter it onto our **Master Score Sheet**. The shoe contains 6 Decks of Cards ... so expect to see some crazy poker hands.

5) You may only draw a **MAXIMUM of 7 CARDS** per game. We then use the best 5 of those 7 for your poker hand. Once you've got all 7 of your cards, you still continue bowling .. just don't take anymore cards, please.

6) Once everybody has finished their game, we will determine who has the best 5 card poker hand and wins the **Grand Prize**. Don't worry if you don't know all about poker. We'll let you know who won. The Grand Prize Winner gets to choose a Gift Certificate/Card from one of our local businesses.
(we like to refer to them as Hidden Gems)

7) The 2nd Highest Hand in each game gets TWO extra raffle tickets. The 3rd highest hand gets ONE extra raffle ticket.

8) Once we've announced the winners, reshuffled and changed score sheets, it's time to start the next game.

9) Raffles will be drawn both after Game 2 and after Game 3.

ENJOY & THANKS FOR PLAYING !!!!
